

TARIFF MPLI 9020
MINNESOTA PRAIRIE LINE INCORPORATED

FUEL SURCHARGE TARIFF

APPLICABLE ON
CARLOAD RATES

APPLYING TO OR FROM
STATIONS ON MINNESOTA PRAIRIE LINE INCORPORATED
AS PROVIDED IN TARIFF OPSL 6000-SERIES

SPECIAL NOTICE

The surcharge provisions of this tariff are issued and made effective solely for the purpose of offsetting increased fuel costs.

SURCHARGE TARIFF

This tariff is applicable on interstate and intrastate traffic and is applicable when referenced.

ISSUED: April 4, 2007

EFFECTIVE: April 26, 2007

Issued by:

FUEL SURCHARGE TARIFF

A fuel surcharge will be assessed as outlined below:

1. All local carload traffic originating on the MPLI and billed by the MPLI when freight rate tariffs make reference to this surcharge tariff.
2. All joint line carload traffic originating on the MPLI and billed by the MPLI when moving on through or proportional rates published by the MPLI and reference is made to this surcharge tariff.
3. All carload traffic terminating on the MPLI either moving in through rates or rule 11 rates published by MPLI and billed freight collect. All applicable freight rate tariffs must make reference to this surcharge tariff.
4. The fuel surcharge will be billed against the payer of freight charges.

MPLI will apply a fuel surcharge to linehaul freight charge(s) based on the monthly average price of U.S. No. 2 Diesel Retail Sales by All Sellers (Cents per Gallon) On -Highway Diesel (OHD).

The source for the price of OHD is the U.S. Department of Energy's EIA Retail On-Highway Diesel Prices Report, whose monthly average price is available under "2-M Diesel Prices - All Types" at <http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp>.

When the monthly average price of OHD equals or exceeds \$2.30 in the second calendar month prior to the month in which the fuel surcharge is applied, the fuel surcharge rate per mile as shown in the OHD Fuel Surcharge Table will be applied to the linehaul freight charge. For example, the surcharge amount in April will be calculated from the monthly average OHD price during February. Rail mileage is calculated using 3rd party software PC*Miler Rail Version 13 (ALK Technologies) on each linehaul movement. Where the rail miles are not available through PC*Miler, TCWR will calculate and publish the mileage independently.

The Date of surcharge shall be applied as follows:

<u>OHD Average Price</u>	... is used to calculate the surcharge on:
January	March 1
February	April 1
March	May 1
April	June 1
May	July 1
June	August 1
July	September 1
August	October 1
September	November 1
October	December 1
November	January 1
December	February 1
